LEENA PATEL

Analytics Engineer

Phoenix, AZ - (555) 123-4567 - leena.patel@example.com - LinkedIn: linkedin.com/in/leena-patel

SUMMARY

Results-driven Analytics Engineer with five years of experience transforming raw data into actionable insights for the retail and technology sectors. Proficient in building data pipelines, performing statistical analysis, and automating report generation using modern ETL tools and cloud data warehouses.

SKILLS

Python | SQL | BigQuery | Snowflake | dbt | Data Modeling | ETL | Data Visualization | Git | Tableau | Power BI

EXPERIENCE

- Architected end-to-end data pipelines in Snowflake and BigQuery, reducing data refresh times by 40%.
- Built reusable dbt models and maintained data lineage documentation to support compliance and audit readiness.
- Collaborated with cross-functional stakeholders to translate business requirements into scalable analytical solutions.
- Designed and optimized data models for marketing attribution analyses, improving query performance by 25%.
- Implemented data quality checks and scheduled reporting pipelines using dbt, achieving a 98% data accuracy rate.
- Worked with product teams to validate A/B testing datasets and report results to senior leadership.
- Collected and cleaned sales data from POS systems to support quarterly reporting and inventory management.
- Developed automated SQL scripts to extract, transform, and load data into a central warehouse, cutting manual effort by 30%.
- Created Tableau dashboards to track inventory levels and sales performance, enabling data-driven inventory decisions.

EDUCATION

Mesa Community College - Mesa, AZ, United States

Associate Degree - Statistics | 2019
